

Mockup Review Notes

Great job overall!!! Love the vibe and the direction this is heading in!

Things to consider:

- Find a way to make the background easier on the readers eyes if they are staring at the website for a long time (increase opacity on the text back)
- Consider changing the color of the sidebar—either match the dark red of the text back or make it blue?
- Sidebar hover—prefer the more comic-y one, but maybe alter it a bit. Perhaps lessen the opacity? Use the dot motif instead of a misc. shape? Maybe a time to incorporate the blue? Maybe change the text color with the shape so that it clearly takes on a “POW!” type of style/vibe? All just ideas, open to whatever you come up with!
- Consider adding “Wonder Woman” somewhere on the home page? Not a huge deal if it throws off the design, but could be nice.
- Would love to find somewhere to incorporate the blue, perhaps as a shadow behind the image-hover-callout shape? Perhaps somewhere else!
